

The diagram illustrates the assessment of a tree's health based on its crown spread and critical root zone. It is divided into two main sections: **Retained Tree** and **Removed Tree**.

Retained Tree: This section shows a tree with a green crown spread and a dashed green critical root zone. The crown spread is indicated by a red dashed circle. The critical root zone is indicated by a green dashed circle. A black crosshair (+) is located within the crown spread, and a black hash symbol (#) is located within the critical root zone. Arrows point from the labels to the corresponding areas.

Removed Tree: This section shows a tree with a red crosshair (X) located within the crown spread and a black hash symbol (#) located within the critical root zone. The crown spread is indicated by a red dashed circle, and the critical root zone is indicated by a green dashed circle. Arrows point from the labels to the corresponding areas.

Labels and Arrows:

- Crown Spread:** Points to the red dashed circle in the Retained Tree section.
- Tree Tag #. See Tree Inventory for assessment:** Points to the black hash symbol (#) in the Retained Tree section.
- Critical Root Zone:** Points to the green dashed circle in the Retained Tree section.
- Critical Root Zone:** Points to the green dashed circle in the Removed Tree section.
